

CELESTIA 2.0

Team Name: Celestia Trichy

Akhil Semwal
Reg no: GR2026003809
1st Year MCA, NIT Trichy

Ankit Bhuria
Reg no: GR2026005738
1st Year MCA, NIT Trichy

Abhishek Kumawat
Reg no: GR2026005776
1st Year MCA, NIT Trichy

Sushmit Shukla
Reg no: GR2026005697
1st Year MCA, NIT Trichy

PROBLEM STATEMENT:

- **Lost Memory:** Senior insights vanish upon graduation; institutional knowledge disappears with each leaving batch.
- **Access Barrier:** Students rely strictly on personal contacts; those without strong networks miss vital opportunities.
- **Freshers:** Onboarding and resource direction; navigating new academic environments and core requirements seamlessly.
- **Intermediate:** Projects, internships, and skill paths; choosing domain specializations and building practical portfolios.
- **Final Years & Alumni:** Career, placement, and guidance; higher studies preparation and giving back to the community.

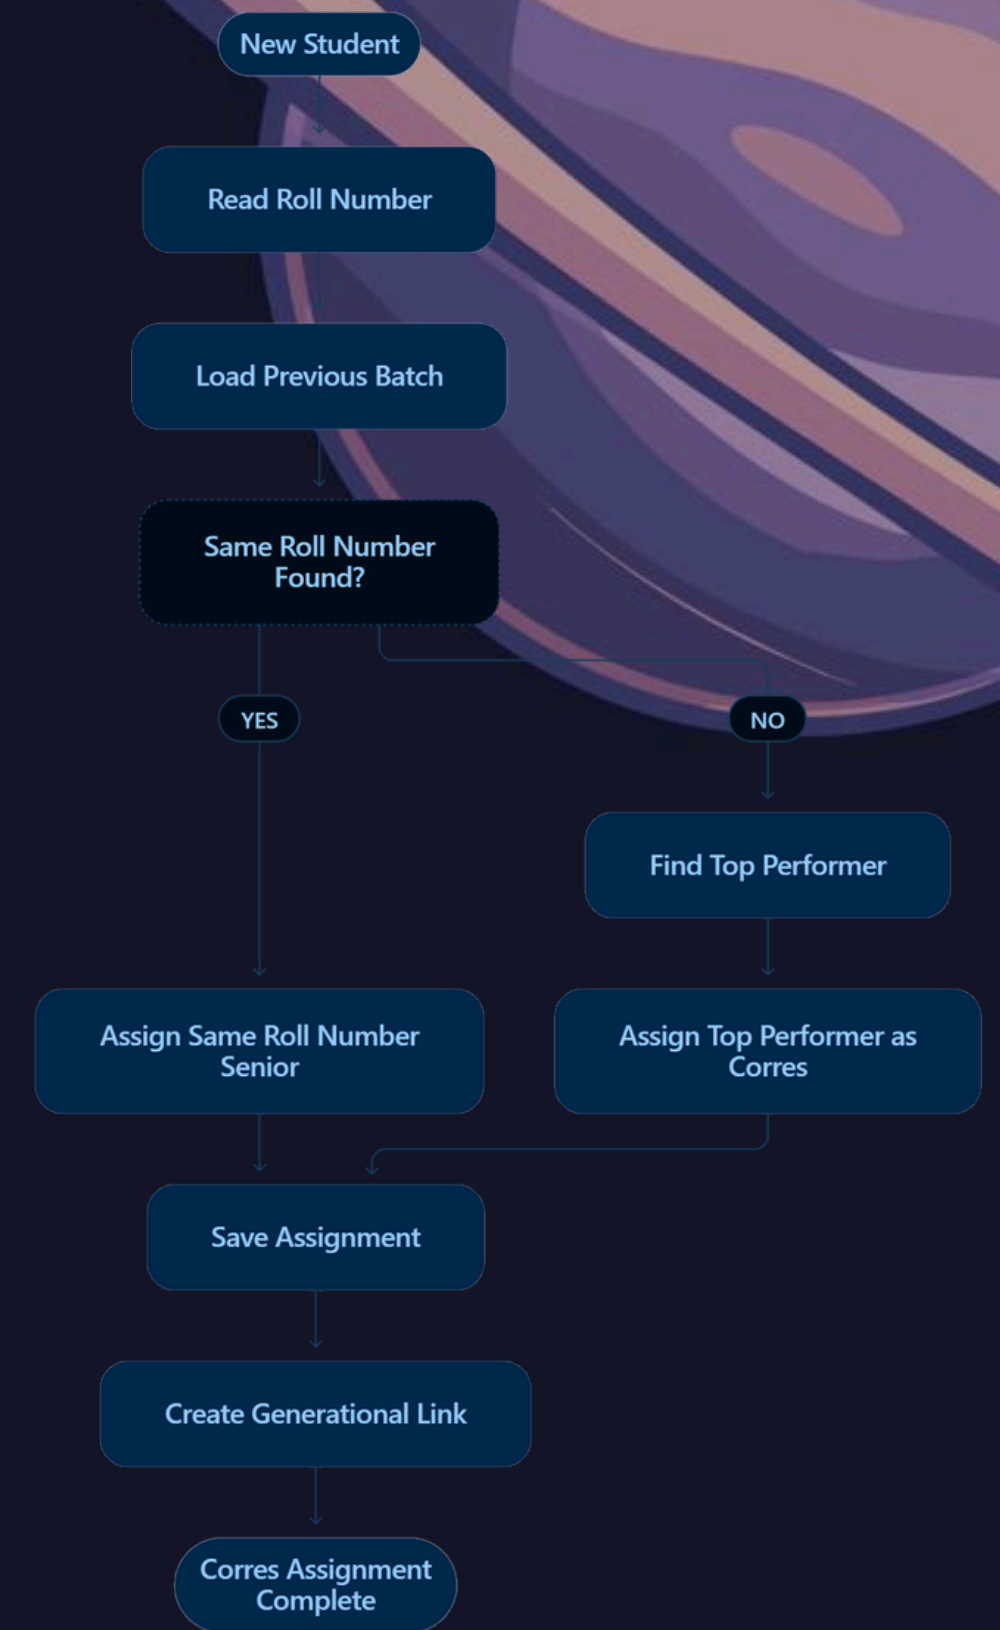

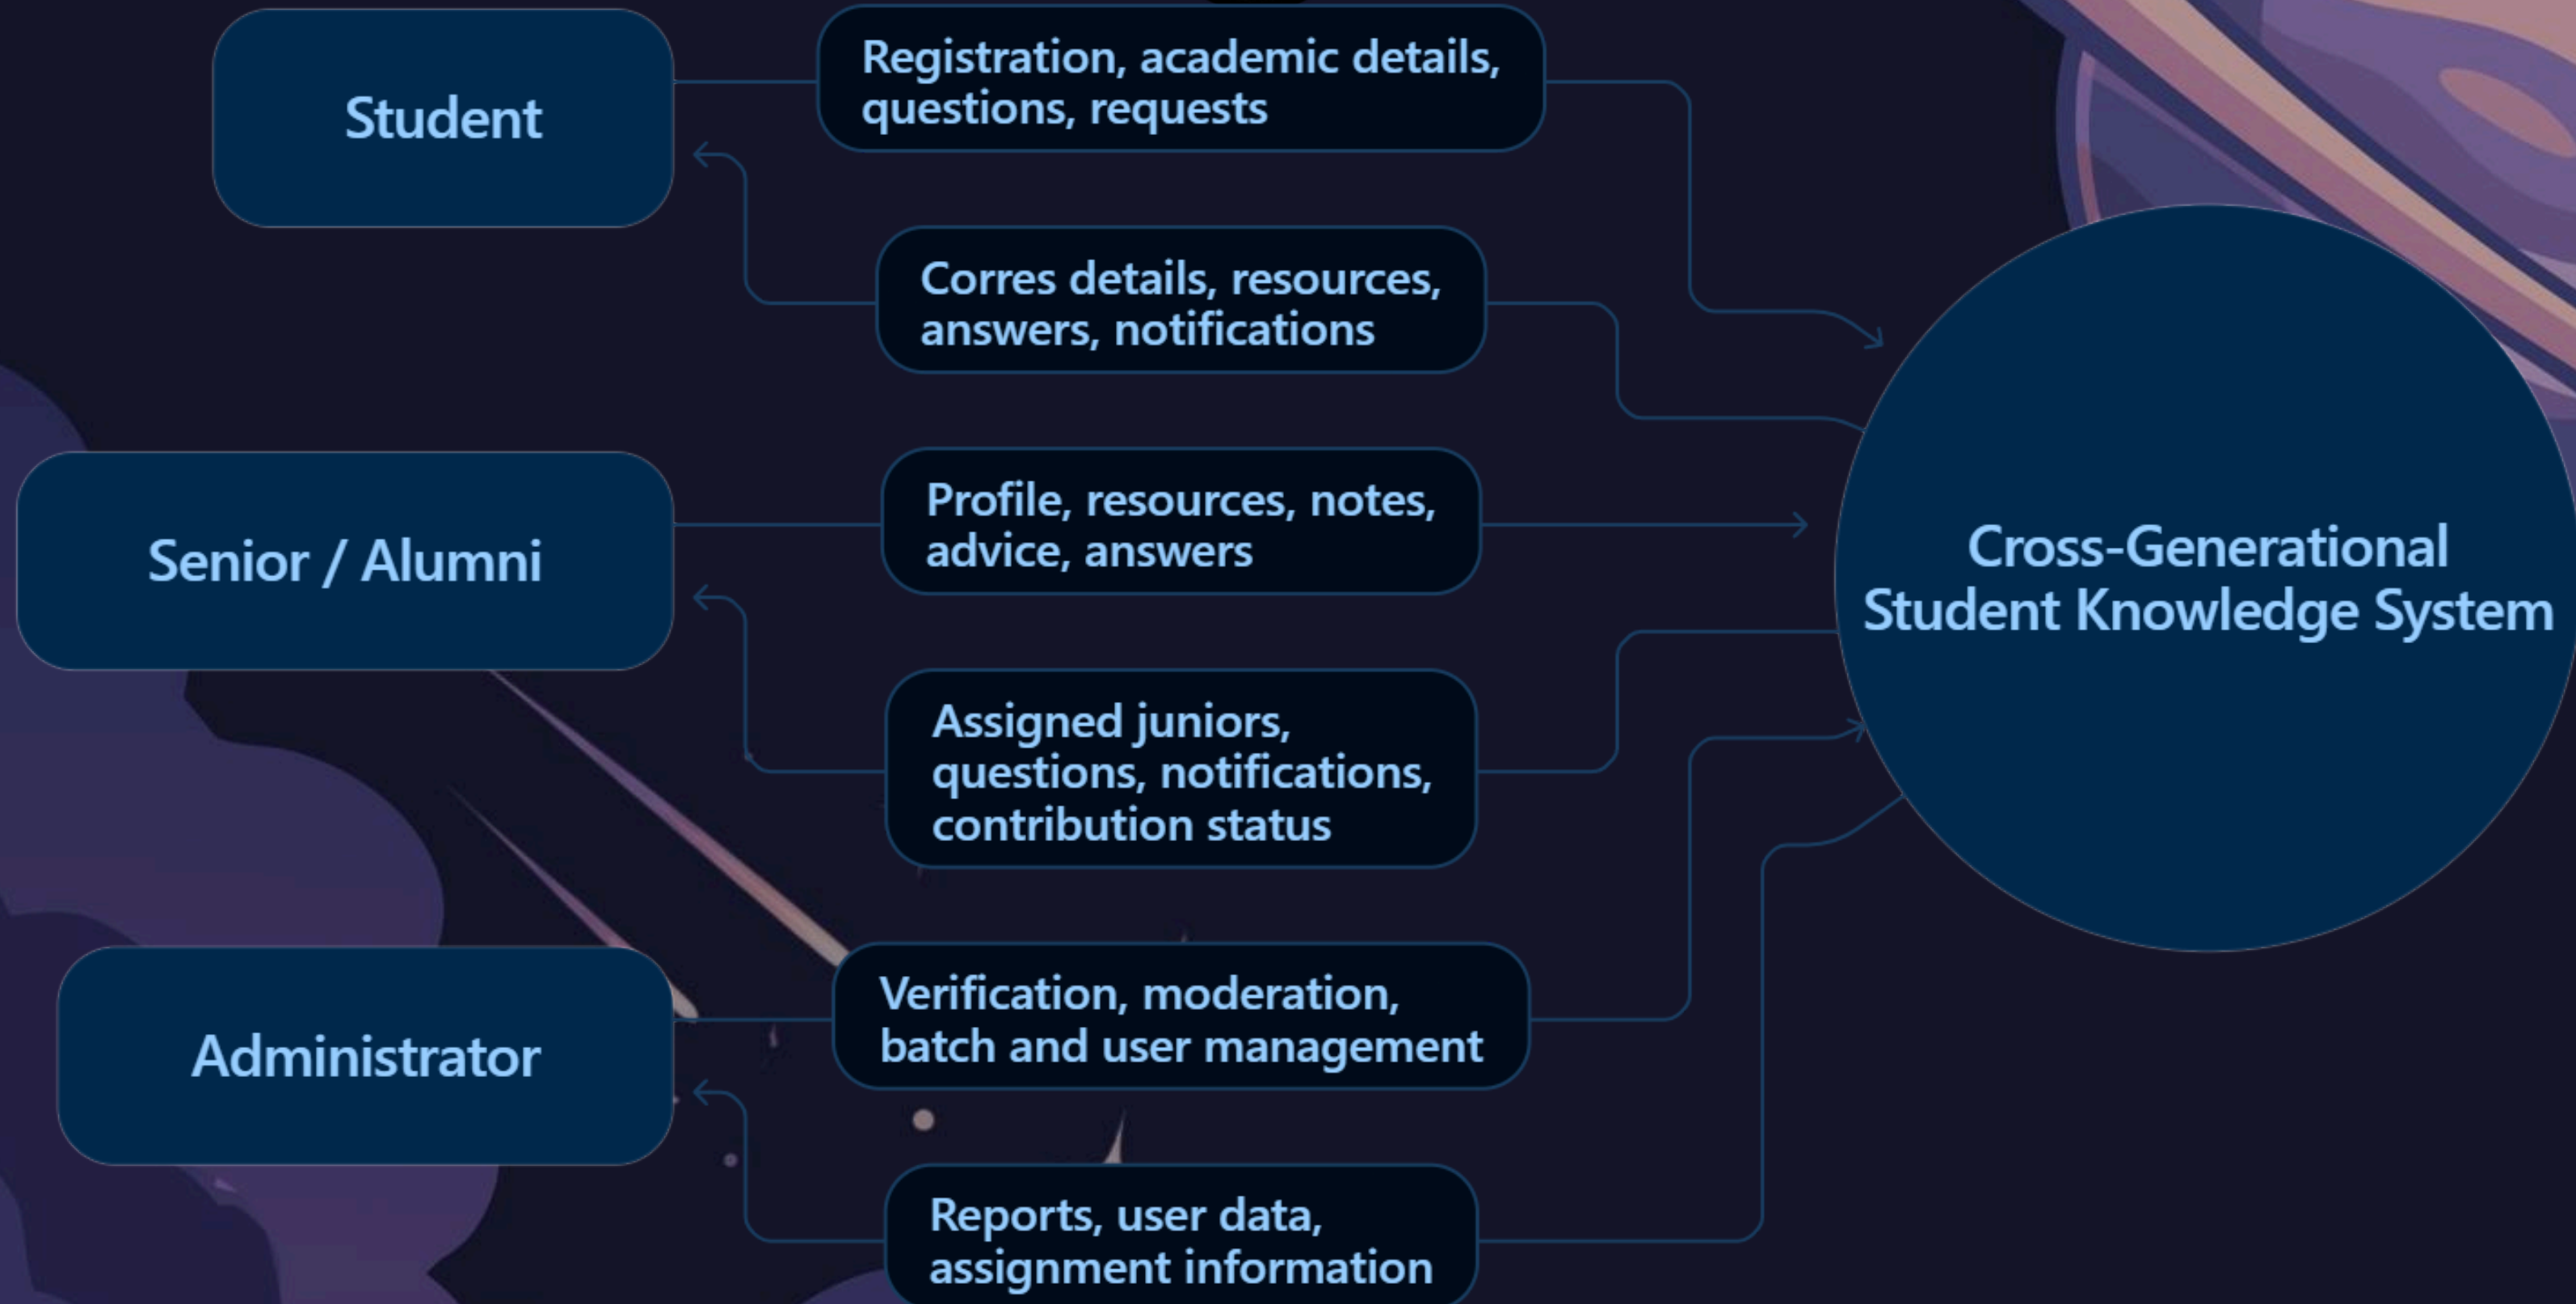

PROPOSED SOLUTION:

Core Philosophy

"Learn from the generations before you. Pass it to the generations after you."

- **Automatic Corres Assignment:** Pairs students using matching roll numbers from previous batches.
- **Top-Performer Fallback:** Assigns high-achieving mentors when a direct roll number match is unavailable.
- **Knowledge Repository:** Stores academic resources, notes, advice, timetables, and experiences.
- **Chat & Q&A:** Enables direct communication and guidance between seniors and students.
- **Generational History:** Preserves institutional knowledge and continuity across multiple batches.
- **Streaks & Notifications:** Encourages continuous senior contributions and active engagement.

TECH STACK USED:

Frontend → React.js + Tailwind CSS

Backend → Node.js + Express.js

Database → Neon PostgreSQL + Prisma

File Storage → AWS S3

Real-time Chat → Socket.IO

Authentication → JWT

Notifications → Firebase Cloud Messaging

Scheduler → node-cron

Deployment → AWS

Version Control → GitHub

THANK YOU!
